Parents of current students enrolled in CISD are invited to attend **one** of two public information meetings designed to help parents learn more about the state end of course tests and STAAR testing and how these tests will impact their children. These presentations will include updated information that was not previously available during the Fall 2011 parent meetings.

Members of the district's Curriculum and Instruction Department have prepared informational presentations on the State of Texas Assessments of Academic Readiness (STAAR) and End of Course (EOC) Exams.

Parents are encouraged to attend just one of the two, presentations. The Monday, February 13, 2012 presentation will focus on elementary information and the Thursday, February 16, 2012 presentation will focus on secondary information.

Both presentations will be posted to the CISD website afterward for those parents unable to attend.
