

Coppell Education Foundation Needs You!

Now more than ever, the Coppell Education Foundation needs YOUR participation in our annual RED and BLACK fundraising campaign. Together the Foundation and the community must work together to ensure our Coppell schools remain excellent. With fantastic parent and community participation, we can turn to big organizations for support. That's why we are starting our RED and BLACK campaign earlier than ever this year. YOUR support of the Coppell Education Foundation will help create the momentum necessary to reach out and successfully capture increased corporate funding through our new Community Partners in Excellence program.

We see the possibility of raising a significant endowment supplementing much needed resources for today AND tomorrow. **Lakeside Elementary** has benefitted in the past from Coppell Education Foundation grants for **Level Research Library, Building a Foundation for Writing, Performing Readers, Math 3 Intervention Materials** with the amount **over \$23,000**.

With YOUR participation in the RED and BLACK annual campaign, it is our strongest desire that the support to **Lakeside Elementary** will grow in significant ways. Please help as you are able, but please give something. **The amount is not as important as YOUR participation!**

Thank you in advance for YOUR support of our excellent school district!
